

## SUNY Matriculation & Enrollment Forum - 5/6/20

### Recording

#### Key Takeaways

- **Most campuses are moving deadlines to June 1st**, but some May 1st deadlines remain - and some campuses require that you contact them.
- There are currently no updates on whether the fall semester will be virtual or in-person, or on the impact of SAT changes on next year's incoming freshmen.
- **COVID19 will generally not impact students' financial eligibility for EOP**, as guidelines state that students need to be historically disadvantaged. However, **for regular admissions, students should reach out to individual campus FA offices to appeal** if their circumstances have changed and they need additional aid.
- **EOP summer programs will go online for remote learning.** To close the technology gaps, the Office of Opportunity Programs will provide loaner laptops to participating students. Summer academies/programs will vary by campus.
- **EOP programs are generally still accepting students and are being lenient with submitting paperwork**, but students will need to make sure they can submit by the start of the semester.
